KELLOGG
SEED COMPANY
MILWAUKEE, WISCONSIN

TREAT SEED WITH **SEMESAN BEL** FOR BIGGER POTATO YIELDS AND BETTER PROFIT

Reduces seed
piece decay
Improves stands
Checks seed-borne
scab and
Rhizoctonia

Closely checked tests in fifteen states have proved beyond doubt that any potato grower can usually expect better returns from his seed if he dip-treats it with SEMESAN BEL before planting.

At an average cost of 21¢ an acre this quick dip treatment — by reducing seed piece decay and seed-borne scab and Rhizoctonia — has increased the average yield 13.6% in tests. Result — lower growing cost, and more profit!

No mussy soaking. Treat seed as fast as you can dip it. One pound of SEMESAN BEL treats from 60 to 80 bushels — easily, quickly, and at very low cost.

Use SEMESAN BEL this year for better profit. Four oz., 45¢; 1 lb., \$1.50; 5 lbs., \$6.75. Come in now for your copy of free Potato Pamphlet.
